

About the MASTER CLASS

A master class is scheduled for every day of the Retreat. Each participant will present a tune that they have memorized (if possible) before the retreat. They will present it to the others in class. I will explain how each will work in pairs.

We will work on each participant's tune as a class, figuring out back up rhythm and chords, and then playing it all together. This is a collaborative way for all of us to explore different tunes in addition to the ones I will teach.
